# The MARYLAND GAZETTE.

[XXIst Year.] THURSDAY, May 9, 1765. [No. 1044.]

*The following Letter was lately Wrote to a* NOBLE LORD, *by an eminent Merchant in London, who has, on all Occasions, shewn himself a true Friend to these Provinces, which justly entitle him to the Esteem of all that Love their Prosperity.*

MY LORD,

THE Inhabitants of America, and Merchants here, who are connected with them, still look on your Lordship as their Patron; who have the Welfare of the Colonies at Heart; from a just Sense of their Importance to their Mother-Country.

Although your Lordship is engaged in a more extensive Service, you will not be an unconcerned Spectator of the Hardships the Colonies must suffer, if the new Regulations concerning their Trade are carried into Execution; and the Damage that will thereby accrue to Great-Britain.

Waving the Consideration of the Privileges of Englishmen, for the Preservation of which intire and uncontrouled, the Forefathers of the present Inhabitants preferred an inhospitable Desart to their native Soil, and the several Charters which were the Condition (under the Sanction of royal Authority) of the Settling those Colonies; of all which they are exceedingly and justly tenacious and jealous, tho' as zealously affected, and as loyal Subjects, to his Majesty as any in his Dominions.

I will only consider how these new Regulations, if put in Execution, or not Repealed, will operate on our Commerce.

That any Difficulties should be put on the Sale of American Lumber, is unaccountable, when that Country is covered with Timber, and cannot be cultivated until that is cut down and disposed of, but must become an Incumbrance instead of an useful Acquisition. This is stunting the Growth of the Colonies, by the Growth of which only we can reap Advantage by an Accession of Territory.

Rather open all the Markets that can be found for American Timber, as well as the whole Produce of that Continent, and allow a Bounty for importing it into Great-Britain, who now pays large Sums of Money for Timber from the North.

Which is the Interest of Great-Britain? to pay a Bounty to her own Subjects in America, or the whole Value of the Timber to Foreigners?

The Duty on Wine will immediately affect the Fishery, as they are purchased of Popish Countries, by their Consumption of Fish, and in whatever Measure they affect the Fishery, in that Proportion they affect the Source of our Riches and Naval Power.

The Prohibition of foreign Spirits, and the large Duty laid on Molasses, is also a Tax on the Fishery, which in those cold Countries cannot be carried on without the Use of spirituous Liquors; whatever therefore renders spirituous Liquors dear, is a Burthen on the Trade, which is of more Value to us than the Mines of Mexico and Peru; is it not an unaccountable Mistake in Politics to clog the greatest Source of our Riches and Naval Power?

What the particular Difficulties are which this new Regulation will bring on the Provinces you will best learn from their several Memorials; but this is evident, it will diminish their Commerce to England, for Want of a Capacity to pay for the Goods they would otherways take; and put them on manufacturing Necessaries for themselves.

The Goods I export to America yearly employ 2000 Men, Women and Children, suppose in the City of London there are thirty Merchants who in common export the like Quantity, and many much more, our Exports then from London at a modest Computation must employ 60,000 Pair of Hands, how amazing then must be the whole Number of Manufacturers employed by the Exports from Bristol, Liverpool, and all the Out-Ports added together.

Is such a Commerce to be trifled with and endanger'd? (I may say the most advantageous to Great-Britain) which employs at least 100,000 Poor, who if unemploy'd must be reduced to one of these destructive Necessities, either to fall on the Lands of the Nobility and Gentry for Support or go to America and set up their respective Manufactures there, which reckoning 300 working Days to the Year, and estimating their Labour at One Shilling a Day, would be an annual Loss to Great-Britain of £. 1,500,000.

Laying any Difficulties and Burthens on the Continent and Islands of America is giving the Cramp, if not the Dead Palsy, to their Commerce and Navigation, and the Dead Palsy in a Limb must inevitably affect the whole Body.

It is not to be supposed this Destruction of our Commerce will come on us immediately, or at once, No! Trade will die by gradual Consumption, which will be as fatal and certain as a sudden Apoplexy: And when Trade is once got out of its old Channel, it is like the Course of a River that never returns more.

Your Lordship will say, what are the Advantages that must compensate for all these destructive Evils! I know of none but that the Lumber by having but one open Market may come cheaper to the Islands, and the Material for Rum being advanced to the Continent, the Rum also of the Islands will bear a better Price, but this is distressing the Continent to support the Opulency and Luxury of the Islands, which notwithstanding the affected Epithet of poor Planters is undeniably exceeding great.

The avow'd Advantage is bringing a Sum of Money into the Treasury, which will in the Operation be found a Deception; for the Support of a sufficient Number of Officers and Cruisers to prevent Smuggling, on that extensive Coast, will devour the whole Duty, and *One Penny* per Gallon on the Molasses collected with the Good-Will of the People, will produce more neat Money than *Three Pence* collected by the Dint of Officers: For it is always found in Fact, Raising the Duty Lessens the Revenue.

But supposing this Sum should arise to the most sanguine Expectation of the Author of these Measures, can it compensate for the Non-Cultivation of the wild Country of America?

Discouraging the Fishery of America, our most valuable Treasure?

Creating Fears and Jealousies in the Minds of Thousands of his Majesty's most faithful and loyal Subjects, on a Tract of Land above 1,000 Miles Extent? And

Hazarding the gradual Loss of a Commerce that circulates a Million and Half yearly, and prevents 100,000 Manufacturers from either falling on the landed Estates for Support, or leaving their native Land to seek Employment where Trade will be encouraged?

Sure these Considerations will rouse your Lordship's Attention, and engage your Influence with the Ministry, to adopt a System of Politics which will promote the mutual Advantage, Esteem and Affection that ought always to subsist between the Colonies and their Mother-Country: To which I may venture to say they are strongly attach'd, *so strongly that nothing but Oppression will ever weaken.*

Colonies seated on so large a Tract of Land, if Markets were found for their Produce, the Inhabitants would improve and cultivate to the encreasing and unspeakable Advantage of Great-Britain. The Importance of the Affair will I hope be a sufficient Apology for this Trouble given your Lordship by

*Your Lordship's*
*most obedient humble Servant.*

LONDON, *February* 11.

IT is said the Bank has offered to advance what Money may be wanted, on the Credit of the Land Tax and Malt Bills, at 3 and ½ per Cent.

We hear there is a Design to transport all our future Female Convicts, of a certain Age, to the two Floridas, instead of sending them, as hitherto, to Maryland and Virginia.

*Feb.* 14. We are assured that an additional Duty on Stamps is to take place in all the British Colonies in America.

It is confidently said, the important Affair of the Manilla Ransom will speedily be investigated in a great Assembly, when the principal Officers employed in that Expedition will be summoned to attend; after which a Delivery of Hostages on the Part of Spain, or an immediate Payment of the Capitulation Bills, will be the final Alternative proposed by Great-Britain to the Court of Madrid, previous to certain vigorous Dispositions now upon the Tapis.

*Feb.* 19. It is said that a great precise Colonel will soon resign a Pension that was given to one of his Family, on Account of a large Bequest which has lately fallen to him.

*Feb.* 20. By the Two Friends, of Cork, Archibald Thompson, Master, from Rotterdam for London, arrived at Plymouth, we learn, that a new 74 Gun Ship was launched at Rotterdam, masted and rigged, and 2 finished; that a 64 Gun Ship was in great Forwardness upon the Stocks; besides 17 Merchant Ships from 300 to 500 Tons now building; and 9 or 10 shall just launched and rigging.

'Tis now said that One Million and Four Hundred Thousand Pounds will be raised by Annuities and a Lottery. There will be two Lotteries for Seven Hundred Thousand Pounds; each Lottery to consist of 35,000 Tickets, at 10 l. each; one to be drawn in May, and the other in November; the Whole to consist of Three per Cent. Annuities, redeemable by Parliament.

*Feb.* 28. Last Week 47 young Women were engaged on high Encouragement, to embark for Pensacola and Augustine; after the Expiration of the Term agreed on, they are to have a free Passage to England, should they choose not to remain longer in America.

The Plantation Agents have all failed in their Opposition to the intended Duty on American Stamps: And we hear, the necessary Instructions for establishing proper Officers in each Province of North-America, are actually before us.

Last Week 1200 l. Sterling were laid out on Commission from North-America, in the Purchase of Mens and Womens Cloaths, and Wearing Apparel, proper for introducing the English Dress among the several Tribes of Indians at the Back of our Settlements.

Five Thousand Pounds are to be added to the Rewards already offered by Parliament for those who shall discover the Longitude at Sea.

Last Night the Society of Arts, &c. in the Strand, gave a Bounty of 100 l. to a poor Tanner at Battle in Sussex, for disclosing his Invention for the Improvement of the Tanning Business. This Man has been kept in Town several Months, at the Expence of the Society, to give satisfactory Proofs of the Usefulness of his Discovery, which he has done to the most skilful Tanners and Curriers in Town, who declared the Skins tanned by him were better Leather than most that are sold in Leadenhall-Market, though they had been in the Tan-pit but two Thirds of the usual Time. They were Tanned with Oak Saw-dust only. This Discovery has set the Tanners to contrive Engines for reducing to Powder small Pieces of Oak, which will greatly reduce the Price of the Bark, till now a very valuable Commodity, on Account of the great Demand for it and small Quantity to be obtained, not one of the many Contrivances to supply its Place for several Years past having answered any good Purpose. From the above Experiments some think the Oak Dust is more effectual in tanning Leather than the Bark itself.

IRELAND.

*Cork, Feb.* 14. By a Letter from Clonmell, we are informed, that one of the Persons that were lodged in Clonmell Gaol last Week, under the Denomination of White Boys, was Servant to one of the principal Gentlemen of that Place, and that no less than Ten other Persons, against whom Informations had been given, were absconded the same.

*Feb.* 19. Last Saturday Mr. Daniel M'Carthy, Sub-Sheriff of the County of Cork, going with five Assistants, by Virtue of his Majesty's Writ of Injunction, upon a Commission of Lunacy, to the Lands of Fuller's Park, in the County, where he was opposed by a riotous Party, found in Arms, when the Sheriff and his Men, for the Safety of their own Lives, were obliged to fly

Arms, but will still make the Mob fond of his Party, by which one Carthy, the Ringleader, was killed, and several wounded. One of the Sheriff's Men was dangerously wounded.

ANTIGUA, *March* 27.

*Extract of a Letter from Dominica, dated the 16th Inſtant.*

"We are here under the greateſt Conſternation and Terror on account of the many and violent Earthquakes felt here of late; all Yeſterday and laſt Night, without any long Intermiſſion, the Shocks were more violent than were ever known in the Iſland before. It is dreaded ſome fatal Iſſue will ſoon follow: Once or twice in particular Yeſterday, the Motion of the Earth, with a ſtrong hollow Sound, was ſo ſenſible, that we all feared the Houſes in both Towns would have fallen down, and that the Earth would have opened; no other Miſchief happened beſides a general Panic in all the Inhabitants.

NEW-YORK, *April* 25.

We have been favoured with an Account of many Circumſtances relating to the paſſing the Stamp Bill in the Houſe of Commons, but it came to Hand too late for this Week's Paper. By this Account we find the Matter has been greatly miſrepreſented in all our Papers, copied from the Boſton Papers.——The Bill having been moſt ſtrenuouſly oppoſed by many excellent Speakers in the Houſe, where it paſſed but by a ſmall Majority, and contrary to the general Senſe of the People in England.

We hear that an eminent Lawyer, not leſs admired for his Abilities than eſteemed for his Integrity, took Occaſion in a late intereſting Debate in a certain auguſt Aſſembly, to expreſs himſelf in the following Terms: *For my own Part, I think it far better to ſtand with the Laws, than to riſe upon the Ruins of them.* CATO could not have thought more nobly, nor CICERO have expreſſed himſelf with greater Force and Elegance.

*Extract of a Letter from London, dated Jan.* 24.

"There is a great Talk at the other End of the Town about the Alteration of Governments to be made the next Seſſion of Parliament, in the Northern Diſtrict of America: It is ſaid there will be but Four, viz. Nova-Scotia, Province of Main, New-Hampſhire, and New-York. The Maſſachuſets, Rhode-Iſland, and Connecticut, to be divided between New-York and New-Hampſhire."

ANNAPOLIS, *May* 9.

Monday laſt came to Town from the Southward, on a Tour thro' the Colonies, the R^t Hon^ble Lord ADAM GORDON, Colonel of the LXVI^th Regiment of Foot, and Member of Parliament for *Aberdeen*, and Yeſterday he went over the Bay, on his Way to the Northward.

Laſt Week one of the Men who uſed to Row in *Severn* Ferry-Boat, in attempting to go a-croſs a Creek the North Side of *Severn* in a Canoe, being Fuddled with Liquor, overſet and was Drowned.

THE Subscribers beg Leave to inform the PUBLIC, That they have lately Erected, at *BALTIMORE-TOWN*, in MARYLAND, A DISTILLERY for making RUM; which, (by many good Judges who have seen it) is allowed to be one of the largest, compleatest and best constructed STILL-HOUSE of any in NORTH-AMERICA: And having furnished themselves with an expert DISTILLER, and a plentiful Stock of MOLASSES, they purpose to carry on the DISTILLING BUSINESS extensively, and to supply constantly the Demand for Home-made RUM, at nearly the same as the *Philadelphia* Prices, at least on much lower Terms than the Province of MARYLAND has been generally supplied with that Article. The RUM already made by them has been highly approved by the best Judges, and deemed superior to either *Philadelphia* or *New-England* RUM; and they hope to give Satisfaction to the Public, as well as maintain their own Reputation, by continuing to make always of the same approved Quality.

As this Undertaking is so well calculated to promote the general Trade of the Province, and so convenient for supplying the Country Traders, Farmers, &c. who bring their Produce to *Baltimore* Market, as well as to promote the private Emolument of the Owners; it is hoped the Public will give proper Encouragement to a Branch of Trade so useful, and so much wanted in the Province.

Any Gentlemen wanting Quantities of RUM for Exportation, by giving timeous Notice may be supplied, and proper Allowance made to such, by *Their humble Servants*,

RAN away from the Subscriber, in *Northumberland* County, *Virginia*, a Convict Servant Man named *James Irwing*, imported last *May* from *London* into *Patowomack*, by the *Trial*, Capt. *M'Gachin*. He is a stout, swarthy looking old Fellow, pretends to have been many Years Boatswain of a Ship, and seems to understand the Business very well. *By the KING's AUTHORITY.*

THE Commissioners appointed by the King for the Sale of Lands in the Islands of Grenada, the Grenadines, St. Vincent, Dominica, and Tobago, and for adjusting and Settling with the French Inhabitants of St. Vincent and Dominica, the Terms and Conditions on which his Majesty has been graciously pleased to grant them the full Inheritance may become British Subjects, and remain in Possession of the cleared Lands they occupied at the Time of the Surrender of the said Islands, &c. &c. being desirous that those Misapprehensions and Doubts have arisen concerning the Terms and Meaning of the said Terms, the Commissioners, the better to enable the said Inhabitants more clearly to comprehend the same, have directed the following Abstract, taken from his Majesty's Instructions, to be translated into French, and dispersed in the said Island.

*Abstract of the Terms and Conditions contained in his Majesty's Instructions, relative to the French Inhabitants of the Island of St. Vincent and Dominica.*

THE native Caribbees of St. Vincent are permitted to remain undisturbed in their Cottages and Grounds, and the French Inhabitants in that Island and Dominica are encouraged to continue on the Lands which they have occupied, and to enjoy their Possessions, by Virtue of Leases under the Crown in the following Manner, and subject to the following Conditions, that is to say: The Lessee is to take the Oaths of Allegiance, and make and subscribe the Declaration of Abjuration; he is to hold by his Lease only such cleared Lands, as he was at the Surrender of those Islands, and did is possessed of, excepting where his very great Convenience makes some small Alterations necessary, in which Case such Parcels of contiguous Lands may be added and exchanged therein as the Commissioner shall judge reasonable. In Cases where Lands were held before the late Peace by several French Proprietors jointly, some of whom are since retired from them, the said Lands are to be divided into Parts, and Indulgence shewn in the Division to those who are inclined to remain and receive their Portions. But the Lands which have been occupied by religious Societies are not included within the Meaning of these Provisions, nor entitled to the same Favour, but are to be otherwise disposed of. And if any French Inhabitant there happens to be, who has occupied more than Five Hundred Acres of Land, as above described, in St. Vincent, or Three Hundred in Dominica, his Possessions are to be reduced to those Numbers. Neither the Leases, or any Part of the Lands thereby demised, are assignable to any other Person, without a Licence first had from the Governor-General, and the Approbation of the Lords Commissioners for Trade and Plantations; And a Covenant is also to be inserted in the Lease, that the Lessee shall reside at least one Half of the Year, in the Island where the Lands lie. If it shall be found necessary to appropriate to public Uses, cleared Lands in the Possession of any French Inhabitant, he shall be paid for any Buildings, or Improvements thereon by fair Appraisement, and be allotted uncleared Lands in lieu of his cleared Lands so appropriated as above-mentioned.

Under the Restrictions, and with those Conditions, Leases to be signed by the Commissioners, and passed under the Seal of the Islands, may be granted for the Terms of fourteen, twenty-one, thirty-two, or forty Years, at the Option of the Lessee, or (if they prefer it) for fourteen Years, renewable at the pleasure of the Lessee for a further Number of Years, not exceeding forty in the whole. And, in Consideration hereof, certain Fines are to be paid down and Quit-rents reserved to the Crown, according to the Nature and Circumstances of the Case. But if any French Inhabitants shall not be disposed to occupy the Land he has already cleared, upon the Terms of the Leases required of him, he will be permitted to take up uncleared Lands, unincumbered with those Terms, to be allotted him by the Commissioners, in lieu of the former, and be moreover paid for the Buildings thereon, by fair Appraisement.

Notice is hereby given, that the Commissioners intend to repair, with all convenient Speed, first to the Island of St. Vincent, and from thence to Dominica, in order to determine in each Island the several Matters which are to be settled with the said Inhabitants, in Conformity with the above Instructions: And moreover, in order to facilitate and expedite such Settlement, the said Inhabitants are required previously to prepare, and have in Readiness to be given in, to the said Commissioners on their arrival, a full and exact Account of the following Particulars.

I. The Number and Names of all white Persons, and of all other free Persons in each Family.

II. The Number, Names, and Ages of the able Slaves and others belonging to each Family.

III. A descriptive Account of the cleared Lands possessed and occupied by each Family, expressing the Number of Quarries, or Extent which the same contains of, what Parts thereof are under particular Culture, and with what planted; also a Description of the Buildings and Improvements thereon.

IV. The Determinations of the said Inhabitants with Regard to the Terms and Conditions explained in the preceding Abstract, declaring which of the Alternatives offered they severally prefer, in order to become British Subjects, and enjoy the Privileges and Advantages of that free and happy Government.

And, lest any improper Insinuations should be used to harm or prejudice the said Inhabitants, it is declared, that such Information is required with no other View, than to enable the Commissioners the more easily and speedily to settle the Business that is to be concluded with them.

It may not however be improper particularly to explain, that no Bargain or Agreement whatever can be validated, which any of the said Inhabitants may have made or entered into with other Persons, respecting Lands or Houses, since the Time of the Surrender of the said Islands; nor will any Allowance be granted for Improvements of any kind, made in consequence of such unwarrantable Proceedings. All Lands and Houses (excepting the Town Lots granted by Governor Dalrymple, in Charlotteville, in the Island of Dominica) which shall not be judged by the said Commissioners actually to belong to French Inhabitants occupying the same, will be the Property of the King, and disposed of according to his Majesty's royal Instructions.

*By Direction of the Commissioners,*

JOHN GREG, Sec.
